NEUROINTENSIVE CARE: UPDATE 2022

**DATES**

13-17 JUNE 2022

**DURATION**

1 WEEK

**LOCATION**

MONZA (ITALY)

**TUITION**

€ 950 SPECIALISTS

€ 450 RESIDENTS

THE FEE IS INTENDED VAT INCLUDED. IT COVERS ALL LECTURES, COURSE MATERIAL, WI-FI CONNECTIONS, LUNCHES AND COFFEE BREAKS. TRAVEL AND OTHER LIVING EXPENSES ARE NOT INCLUDED.

**APPLICATION DEADLINE**

MARCH 10, 2022

IMPROVE THE MANAGEMENT OF SEVERE NEUROLOGICAL EMERGENCIES IN INTENSIVE CARE

PROGRAM DESCRIPTION

The goal of this clinically oriented week is to provide intellectual interaction with leading experts, to gather the essential information needed to treat neurological/neurosurgical patients, including traumatic brain injury, subarachnoid haemorrhage and intracranial haemorrhage. The school target audience includes staff doctors/residents working in ICUs, as well as neurosurgeons and neurologists.

We never did stop to work on this didactical event and even if the COVID-19 pandemic obliged us to cancel the 2020 edition, after moving to the virtual platform of the University of Milano - Bicocca, organizing an e-learning version of our school...

WE ARE BACK!

“NeuroIntensive Care: Update 2022”, is the fourth in-person edition of a successful course held aimed at fostering a collaborative, multidisciplinary approach.

The school provides a consistent set of basic knowledge, updated treatment strategies, clinical scenarios, including hands-on simulations, to be used during patient management. In a week, the participants will be intensively exposed to lectures on topics ranging from basic concepts to monitoring systems and treatment strategies in traumatic and non-traumatic neuro emergencies. We'll provide students with live lectures made in person by outstanding experts, short, pre-recorded pills to share before the start of the program and live-streaming lectures when needed due to the ongoing pandemic.

This year we will increase the hands-on sessions, which will take place daily for three hours, interspersed with classroom lectures. The practical part will cover neuroradiology interpretation, the neuromonitoring at the bedside (EEG, ICP), and hands-on transcranial Doppler and cerebral echography.

... SPEAKERS

Aarti Saarwal, Atrium Health Wake Forest Baptist, USA
Andrea Rossetti, CHUV Lausanne, Switzerland
Andrew I.R. Maas, University of Antwerp, Belgium
Arjen J.C. Slooter, Utrecht University, The Netherlands
Carlo Giussani, University of Milan-Bicocca, Italy
Claude Hemphill, San Francisco University, USA
Claudio Sandroni, Sacred Heart Catholic University, Italy
David Greer, Boston University, USA

... COVID 19 RESTRICTIONS

All the activities will be held in accordance with the COVID-19 pandemic containment measures and requirements in force on the Italian territory.

At present time, Summer Schools' participants, in application of the University's internal rules, will be asked to show their enhanced COVID-19 green certification (three-doses vaccinated or COVID-19 recovered) and to wear FFP2 mask.

Further updates will be shared through the nicu.unimib.it website.
